

AMENDMENTS TO THE SPECIFICATION

Please replace paragraph 0092 with the following paragraph:

[0092] The term “machine-readable medium” as used herein refers to any medium that participates in providing data that causes a machine to ~~operation~~ operate in a specific fashion. In an embodiment implemented using computer system 500, various machine-readable media are involved, for example, in providing instructions to processor 504 for execution. ~~Such a~~ A machine-readable medium may take many forms, including but not limited to machine-readable storage media (e.g. non-volatile media, volatile media, etc.), and transmission media. Non-volatile media includes, for example, optical or magnetic disks, such as storage device 510. Volatile media includes dynamic memory, such as main memory 506. Transmission media includes coaxial cables, copper wire and fiber optics, including the wires that comprise bus 502. Transmission media can also take the form of acoustic or light waves, such as those generated during radio-wave and infra-red data communications.
